# **Do Males Hairloss Treatments Work For Females Also?**

Girls can have similar hair loss issues to men. They're generally even caused by the precise exact same hormone, DHT, so can a [hair growth product](#) work for a girls if it works for a man? That depends upon the product.

Often times over the counter hair loss merchandise have a male and female version. Even though the trigger of hair loss could be similar the effectiveness and side effects caused by that product on a girls could not be the same as a man.

### **Doctor prescribed merchandise**

It appears that prescription medications for Hair Loss like Propecia could be utilised by each men and girls. Naturally check along with your family members doctor ahead of attempting any prescription based hair loss treatment. This product works by decreasing the quantity of DHT in your body to ensure that there isn't as considerably to bind with hair follicles on the scalp.

Negative side effects that generally happen in men are decreased sex drive and some times erectile dysfunction, obviously I can't say if a girls would experience a decreased libido or not. Again check along with your family members doctor for particulars about possible side effects.

### **Topical Treatments for Girls**

Most hair loss shampoos could be utilised for each men or girls and the formulation could be the exact same. Products like Nisim NuHair BioFactors is mentioned to produce amazing outcomes not just for premature hair loss caused by DHT but also other types of alopecia at the same time.

Products like Rogaine come in two types, one for men and a different for girls. I'd recommend that if there is a girls distinct formulation that girls really should go with that product rather than making use of the mens.

### **Over The Counter Oral Treatments**

This appears to be where there is the biggest difference among male and female [hair growth treatments](#). Favorite non prescription oral supplements that are supposed to quit hair loss are distinct for men and girls.

Favorite merchandise like Provillus and Procerin each have a female version obtainable for sale. Again, like the topical remedies if there is a women's version of the product obtainable I would recommend making use of it exclusively.
