Maintaining A Steady And Nourishing Vegetable Garden and Elevated Garden Beds

There has been a progressively increasing interest in house vegetable gardening for that number of reasons - which includes concerns concerning the food we eat, a desire for much healthier living, dramatic raises in childhood obesity and a search for projects families can enjoy together. Building a garden addresses them all. [Home Garden Houston](#) is the best climate for growing natural vegetables. San Diego landscaping company JCMS Landscaping offers useful tips and tricks to make your garden a resources of great tasting edibles.

In regards to growing natural greens there are many queries... what kind of seeds to purchase? Which types of soil to use? And in what way will you maintain unwanted weeds and pests away? A new company we are working with Instant [Raised Garden Houston](#) and Shawn Studer, permits us to create a complete raised bed natural vegetable backyard within your yard for you and remove all of the guesswork. You can be a successful garden enthusiast from the first day! Shawn is also a Master Composter and will also be assisting us with any Composting questions we have!

The beds are set up for you, complete with untreated cedar rails, weed-less ground mix, and natural fertilizers; all you need to do is plant seeds once a season and water two times per week. This becomes the right family project - all age groups is involved. Moreover, there is no digging, tilling or weeding!

Your only prerequisite is a relatively level area on your garden with at least 6 hours of sunlight a day. Our San Diego landscapers can assist you with vegetable and herb choices, organizing and growing and maintaining if you do not want to do it yourself.

The elevated beds come in the form of basic bed, or a trellis bed, to make it easy for for climbing crops. Both are a handy, 3' x 8' dimensions, which can fit into whatever sized lawn and are generally convenient to tend from any section. Just one trellis bed is usually sufficient to feed two adults for the following 15-20 years. Other beds can be added for bigger families. Greatest of all, every bed comes with 12 months of expert assistance.
