# **Make Your Own Caffè Latte With Jura Capresso Z7 Espresso Machine**

Aren't you fed up of frequenting coffee houses just to have a daily dose of your cappuccino or caffè latte? Have you thought about just how much those fancy coffee houses have been consuming from you? Well, if you have not, I will break it down to you. Your cash, your persistence and your precious time. How? Imagine this, you're a busy person and all you wish is to have a slurp of your most loved caffeine drink and so you need to stop by a cafe, join the long line, place an order and wait for it to be served. It may sound fine for some people but doing that everyday could be irritating especially if you're about to be late to your morning shift.

Satisfying yourself before or after working all day long doesn't have to be hard. After all, you are worthy of it. A cafe may provide you what you wish but you deserve something better, like your very own coffee machine. There is nothing quite like making your own coffee, espresso or cappuccino using your very own coffee machine. With a coffee machine, you can have your favorite drink anytime you want to, what's even more impressive is that you do not have to wait for it. Who wouldn't like that?

Making your own coffee is simple if you have the perfect device, so you don't have to worry. One coffee machine that's worthy of recommendation is [Jura Capresso Z7 Espresso Machine](#). Jura Capresso Impressa Z7 One Touch Superautomatic Coffee Machine is very easy to operate. Believe it or not, you can make it work with just one touch. From it, you can produce a cup or two of cappuccino or caffè latte in an instant. What is even more interesting about this coffee machine is that you get to decide when to move the cup out of the machine. How powerful can this device get! Getting your fair share of espresso every day wouldn't be so hard and would only take your single touch and that's thanks to Jura Capresso Z7.

[Jura Capresso Z7 Espresso Machine](#) boasts 2 stainless steel ThermoBlock Systems and a 20oz stainless steel thermal milk container that can keep milk cold for up to eight hours. This swiss-made and completely programmable wonder has a graphic display for checking progress, has a Zero Energy switch and an electronic bean sensing unit. Its cappuccino spout's height is adjustable. It also boasts a butterfly coffee spout, a grinder bypass doser for pre-ground coffee and of course a water filter. Take note of its low-noise coffee bean grinder with six grind configurations and its built-in rinsing/cleaning/descaling application. All these enclosed in a sturdy 3mm densealuminum front housing, measuring 12.5"W x 17.75"D x 14.6"H.

If you wish to have an efficient coffee machine that is simple to run and clean up after use, you would like Jura Capresso Z7 Espresso Machine. You can have this coffee machine, which comes with an instructional DVD and a two-year warranty, delivered on your doorsteps just by checking out [Coffee Makers](#).
